

Natural History Lecture Series

REPTILE RESEARCH ON THE SAN MATEO COAST

Saturday, June 16, 2007

Join Melissa Amarello for an introduction to the diverse community of local reptiles. Learn of her efforts to study their natural history and the effects of prescribed burning along the San Mateo coast. She is currently conducting research on snake conservation in the area as part of a fellowship sponsored by the National Science Foundation and the US Geological Survey.

Melissa will present a slideshow and lecture with live animals at the Native Sons Hall in Pescadero. Afterwards she will lead a fieldtrip to nearby spots where some of the local species can be found.

What: **Lecture with live animals & Fieldtrip**

When: **1:30 pm for lecture at Native Sons Hall, fieldtrip to follow**

Where: **Native Sons Hall, Stage Rd, Pescadero (next to post office)**

Cost: **\$5 suggested donation per person or family**
(children welcome if they do not interrupt the speaker's presentation)

LIVE ANIMALS!

Take Hwy. 1 to Pescadero Creek Road, an intersection marked by a flashing light.

Travel into Pescadero to the stop sign at the center of town, by the flag pole.

Turn south onto Stage Road. Native Sons Hall is just past the Post Office.

*Allow approximately 30 minutes travel time from Half Moon Bay
or 45 minutes from Santa Cruz.*

Please visit our website www.gazos.org or call 650-879-1441 for directions and changes in times or location.
